Proposal for College Partnership — Career Skill Assessment & Placement-Oriented Training Program

Greetings from Vinsup Skill Academy!

We are pleased to present a comprehensive Placement-Oriented Career Skill Assessment & Training Program designed to enhance the employability of your students and align their learning with real industry requirements.

Our mission is to bridge the **gap between academics and industry skills** by identifying each student's career strength and guiding them into a suitable, high-demand technology domain.

DevStack Engineer - 30 Days MERN Full Stack + DevOps Training Plan (6 Hours/Day)

- Target: Final / Pre-final Year Students
- Training Mode: Hands-on, Project-based Learning
- Total Duration: 180 Hours

Outcome: Students will be job-ready to build and deploy full-stack real-world applications.

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Training Duration

30 Days | 6 Hours / Day | Total = 180 Hours

Teaching Pattern

Hours/Day	Activity
2 Hours	Concept + Explanation
2 Hours	Hands-on Practice (Live Datasets)
1 Hour	Daily Assessment (Task / Quiz / Use cases)
1 Hour	Project Work / Case Study

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Phase 1: Web Basics (Day 1–3)

What you will learn: How websites are built.

Day	Topics	What you will do (Practice)
1	HTML (Structure of webpages) + Git basics	Create a basic webpage and upload to GitHub
2	CSS (Design) + Flexbox	Create a beautiful landing page
3	JavaScript basics (Logic + Interaction)	Build a small interactive UI (Ex: Calculator / To-Do List)

<u>Mini Project 1:</u>

Personal Portfolio Website

- Includes: About, Skills, Projects, Contact
- Hosted on GitHub Pages

Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Phase 2: React Frontend (Day 4–10)
What you will learn: How to make modern web apps.

Day	Topics	Hands-On
4	Introduction to React	Create first React app
5	Components, Props & State	Create reusable UI blocks
6	Forms & Hooks (useState/useEffect)	Create input forms
7	Navigation using React Router	Multiple pages in one app
8	Fetching data from APIs	Display real-time data
9	Global State (Context API)	Manage app-level state
10	Using UI Libraries (Tailwind/MUI)	Improve UI design

Mini Project 2:

- Weather App / Movie Search App / Student Dashboard UI

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

Phase 3: Backend (Node + Express) (Day 11–16)

What you will learn: How to create server & APIs.

Day	Topics	Hands-On
11	What is Node.js & Express.js	Create local server
12	Routing (GET, POST, PUT, DELETE)	Create API endpoints
13	CRUD API	Create REST APIs
14	Postman Testing	Test and debug APIs
15	File Uploads (Images)	Upload images to server
16	Connect Frontend + Backend	React UI + Node API integration

Mini Project 3:

- Employee Management CRUD App (Add / Edit / Delete employees)

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Phase 4: MongoDB + User Login (Day 17–20)

What you will learn: How to store data + secure login.

Day	Topics	Hands-On
17	MongoDB Basics + Mongoose	Create database collections
18	User Signup + Login APIs	Create login/register forms
19	JWT Authentication	Protect pages
20	Role-based access (Student/Admin)	Secure dashboard access

<u>Mini Project 4:</u>

- Login + Dashboard System
- Example: Student Login → Student Dashboard / Admin Dashboard

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Phase 5: DevOps Deployment (Day 21–26)

What you will learn: How to host your website on the internet.

Day	Topics	Tools
21	Linux basics	Ubuntu terminal
22	Git & GitHub project management	Branching & Pull Requests
23	Docker basics	Create Docker containers
24	CI/CD pipeline setup	GitHub Actions / Jenkins
25	Deploy MERN app to cloud	AWS / Render / Railway
26	Run project with PM2 + Reverse Proxy	NGINX + SSL

Mini Project 5:

- Deploy your full-stack project online (public link).

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Phase 6: Final Capstone Project (Day 27–30)

- Students will work in teams (2–4 students per team).
- Choose One Project:

Project	**Description**
Campus Placement Portal	Students register → Companies post jobs → Admin controls
Online Course App	Videos, Dashboard, Student/Teacher roles
E-Commerce Store	Products, Cart, Orders, Payments (Razorpay/Stripe)

Training Output

By the end of 30 days, students will:

- Build full-stack applications
- Deploy projects to cloud
- Use Git, GitHub, Docker, CI/CD
- Showcase portfolio for placements

DataVerse Pro - 30 Days Data Analytics Training Program

- Mode: Hands-On, Project-Based
- Daily Duration: 6 Hours
- Total Hours: 180 Hours
- Ideal For: 2nd / 3rd / Final Year Students (Any Branch)

Outcome: Students will be able to clean, analyse, visualize, and present data insights using Excel, SQL, Python, and Power BI—aligned with industry expectations.

31/10/2025

Week 1 – Excel for Data Analysis (Days 1 to 6)

Day	Topics	Activities
Day 1	Excel Interface, Shortcuts, Data Selection, Formatting	Practice sheet operations, basic navigation
Day 2	Sorting, Filtering, Conditional Formatting	Create conditional dashboards using colors
Day 3	Formulas (Relative / Absolute References), Logical Functions (IF, AND, OR)	Salary classification sheet
Day 4	Aggregation (SUM, AVERAGE, COUNT, STDEV, MEDIAN)	Student marks analytics sheet
Day 5	Lookup Functions (VLOOKUP, INDEX/MATCH, XLOOKUP)	Employee-Department lookup exercise
Day 6	Pivot Tables, Pivot Charts, Slicers + Mini Dashboard	Build Micro Dashboard

Mini Project 1 (End of Week 1):

- Sales Analytics Dashboard in Excel (Using Pivot & Slicers)

Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Week 2 – SQL & Databases (Days 7 to 12)

Day	Topics	Activities
7	Introduction to SQL, DB, Keys	Create sample database tables
8	DDL (CREATE, ALTER, DROP), Constraints	Create School/Employee DB
9	DML (INSERT, UPDATE, DELETE), SELECT Queries	Data entry + filtering tasks
10	Sorting, WHERE, LIKE, IN, BETWEEN, CASE WHEN	Write categorized queries
11	JOINS (INNER, LEFT, RIGHT), GROUP BY, HAVING	Sales + Product join analysis
12	Subqueries + Window Functions (ROW_NUMBER)	Ranking Customers by Purchase Value

Mini Project 2 (End of Week 2):

· "Student Management System Database" with JOINS + Rankings

Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Week 3 – Power BI (Days 13 to 18)

Day	Topics	Activities
13	Power BI Interface + Connecting Data	Import Excel + SQL Data
14	Power Query (Clean, Merge, Remove Nulls)	Data transformation practice
15	Data Modeling + Relationships	Create Star Schema for sales dataset
16	DAX Basics (SUM, COUNT, DISTINCTCOUNT, IF, SWITCH)	Create KPIs & Measures
17	Visualizations (Bar, Line, Map, Matrix, KPI cards)	Build multi-page reports
18	Publishing, Sharing, Refresh, Dashboards	Deploy to Power BI Service

Mini Project 3 (End of Week 3):

· Sales Performance Dashboard (KPIs + Slicers + Drill-through)

VINSUP SKILL ACADEMY
Building Future – Ready Professionals

Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Week 4 – Python for Data Analysis (Days 19 to 24)

Day	Topics	Activities
19	Python Basics, Data Types, Loops, Lists, Dicts	Write simple programs
20	NumPy (Arrays, Slicing, Operations)	Weather/Stock data array analysis
21	Pandas (DataFrame, Read CSV, Filter, Sort)	Load and clean datasets
22	Pandas (Groupby, Aggregate, Merge, Join)	Retail sales dataset analysis
23	Matplotlib (Bar, Line, Histogram)	Plot trends & visual summaries
24	Seaborn (Heatmap, Boxplot, Pairplot)	Correlation study on dataset

Mini Project 4 (End of Week 4):
Customer Purchase Analysis Report Using Pandas

31/10/2025

Week 5 – Statistics + Final Project (Days 25 to 30)

Day	Topics	Activities
25	Descriptive Statistics: Mean, Median, SD, Skewness	Compute insights using Excel/Python
26	Probability & Normal Distribution	Identify data behavior patterns
27	Hypothesis Testing (t-test, chi-square), Correlation & Regression	Product performance case study
28	Time Series (Trend, Moving Average)	Forecast Sales/Prices
29	Final Project Development	Mentor-supported implementation
30	Project Presentation + Certification Test	Students present dashboards

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Final Capstone Project Options (Choose One)

Project Title	Tools Used
Retail Sales Performance Dashboard	Excel + SQL + Power BI
HR Employee Attrition Analysis	SQL + Python + Power BI
Hospital Patient & Doctor Data Analytics	Python + Statistics + Power BI
E-commerce Customer Buying Behavior Insights	Pandas + Visualization + Excel

Deliverables to College

- Daily Attendance Report
- Daily Assignments & Worksheets
- Mini Projects (4)
- Final Dashboard / Project Report (Presentation)
- Completion Certificates (If required)

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

How We Prepare Students to Meet and Exceed MNC Recruitment Requirements

Training Process & Implementation Plan

Tool used - Google Classrooms (Visibility to all respective college faculties)

Daily Classes:

1. Regular classes conducted by industry experts covering both theory and practical sessions.
2. Concepts are explained through real-time case studies and live coding demonstrations.
3. Study materials will be provided.

Daily Worksheets:

1. Practice worksheets are shared after every session.
2. Students solve scenario-based questions to strengthen understanding.
3. Trainers review worksheets to ensure learning consistency.

Module-Wise Tests:

1. After completion of each module, assessments are conducted to evaluate concept clarity.
2. Test formats include MCQs, coding challenges, and short project tasks.
3. Performance reports are shared with students and the placement team.

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Parallel Project Development:

1. Students develop their own project alongside training from day one.
2. Each project is related to the course domain (UI/UX, MERN, Data Analyst, or Digital Marketing).
3. Trainers guide students through design, development, and deployment stages.

Live Project Hosting:

1. Every student's project will be deployed live on the web using platforms such as GitHub Pages, Netlify, or AWS.
2. This helps students gain real-world deployment experience and showcase technical competency.

Project Documentation Support:

· Students are trained to prepare professional project documentation including:

1. Problem statement
2. Objectives
3. System architecture
4. Tools used
5. Output snapshots
6. Deployment link

This document acts as their interview support material.

Phone : 8870060607
Email : hrvinsup@gmail.com
Address : 148, Gopalasamy Kovil St, Ganapathy, Coimbatore, Tamil Nadu - 641006

31/10/2025

Portfolio Creation:

Each student will create a personal portfolio website showcasing:

1. Bio & skills
2. Resume
3. Live project links
4. Certificates & achievements

The portfolio becomes a powerful tool for job applications and HR evaluations.

"This program transforms students from degree-holders to job-ready professionals by combining career assessment, industry-aligned training, and placement-focused problem-solving — directly improving the college's placement percentage and reputation."
